## F. B. I. Arrests 17 Top Communists In Roundup

### Tornado Hits Minnesota

MEDICINE LAKE, WISC.—This is one of three tornadoes that struck the Southern Minnesota area Tuesday night. Dust is swept up by the funnel as it swings across the horizon. Hutchinson and Anoka, Minn., were hard hit by the other two twisters. Damages may run into the millions.

### Make Arrests In Pittsburgh And New York

Those Arrested Rank Just Below Eleven Convicted Top Reds

(BULLETIN)

WASHINGTON, June 20.—(INS)—FBI agents today arrested 17 top Communists in New York and Pittsburgh on charges of conspiring to overthrow the United States government.

The Justice department announced that the roundup of the Red leaders was carried out early this morning in the two cities.

Those arrested ranked just below the 11 top Communist leaders convicted last year of conspiracy to advocate the overthrow of the government.

Four More Sought  
Attorney General McGrath also disclosed that warrants have been

NEW YORK, June 20.—(INS)—Twenty-one high Communists—11 in New York and 10 in Pittsburgh—were indicted today and 17 of the 21, arrested in swift FBI raids, were held in high bail.

issued for four more Communist officials, but they have not yet been picked up.

McGrath commented that the Supreme Court ruling on June 4 upholding the conviction of the 11 top leaders means that his department "will continue vigorously to pursue and bring to account" all leaders of the party.

Taken into custody today were: Israel Amter, Marion Maxwell, Abe Bachrach, Isidore Begun.

### Dope Peddler On Bicycle Arrested

NEW YORK, June 20.—(INS)—Narcotics officers last night arrested an alleged dope peddler who was said to have made the rounds of his customers by bicycle. Police said in his home they seized a \$20,000 cache of dope hidden under the kitchen floor.

The agents said they had been trailing Carmelo Vega, 46, for a month. They described him as "one of the biggest retailers in east Harlem."

### Iran Moves To Seize Nation's Oil Industry

Action Taken Despite Last-Minute Appeal From U.S. To Premier

(BULLETIN)

TEHRAN, June 20.—(INS)—Iran took over control of the \$500,000,000 Anglo-Iranian Oil Company properties today, ordering the British directors to operate only through Iranian commissions, effective immediately.

By KINGSBURY SMITH  
(European General Manager, I. N. S.)  
TEHRAN, June 20.—The government of Iran took direct action today to seize the nation's entire oil industry. It appointed representatives to take over the installations of the British-owned Anglo-Iranian Oil company.

At Teheran, Egypt, usually reliable sources said that Royal Air Force stations throughout the Middle East were placed on the alert. A spokesman for Middle East land force headquarters was quoted as saying: "All steps to protect British lives and property in Iran have been taken."

The step was taken at a joint session of the Iranian cabinet and the government oil commission which was held at the bedside of ailing premier Mohammed Mossadegh.

In addition to appointing representatives to take over the Anglo-Iranian facilities, the government

### HEADS STATE GROCERS

ATLANTIC CITY, N. J., June 20.—(INS)—William Dalon, Wilkes Barre, was re-elected president of the Pennsylvania Grocers association at the annual meeting yesterday in Atlantic City.

Vice presidents named were Louis A. Holmes, John A. Adams, Allentown; James A. Hess, Lancaster; and Herbert V. Allen, Johnstown.

Fred A. Nelson, Pittsburgh, was renamed to the board of directors.

### Yalta Concessions Blamed On Hiss By Gen. Hurley

By WILLIAM THEIS  
(I. N. S. Staff Correspondent)

WASHINGTON, June 20.—The MacArthur investigating committee is expected today to hear Gen. Patrick J. Hurley enlarge on his charges that Alger Hiss was responsible for the Yalta concessions to Russia.

Hurley, colorful former ambassador to China and ex-secretary of war, declared on the eve of his senate appearance that Stalin agreed in 1942 to enter the war against Japan at a later date.

Hurley described as "hokey" and "baloney" secretary of state Acheson's claim that the Yalta concessions were necessary to

### Radar Aids In Air Attacks At Night In Korea

By PIERRE J. HUSS  
(I. N. S. Staff Correspondent)

FLUSHING MEADOW N. Y., June 20.—Gen. Matthew Ridgway reported to the United Nations today that a new radar technique now enable allied bombers in Korea to attack enemy movements effectively both at night and in bad weather.

The Supreme U. N. commander's periodic report, covering May 1 to 15, was issued at the height of new air battles in Korean skies between U. N. planes and Russian-built enemy jets, foreshadowing possible greater enemy air activity in retaliation for ground losses.

Targets Not Mentioned  
Ridgway did not mention in the report to what actual targets the new radar system was directed.

### Loss Of \$200,000 In Sharon Fire

Plant And Two Story Apartment Building Burned

SHARON, Pa., June 20.—(INS)—A raging fire—fanned by strong winds—destroyed the United Storm Window company and a two-story brick-frame apartment building in Sharon today and caused about \$200,000 damages.

No one was injured. Thirty-four persons, including 18 children, were made homeless. Sharon firemen said both the storm window plant and the apartment dwellers lost all their possessions. The blaze started in the storm window plant and spread to the adjoining apartment building. The flames also burned the front of a garage and a church across the street. Nearby Farrell firemen also fought the blaze.

United's plant is located about four blocks from the business section of town in the southwest section and is along Route 62 which extends between Sharon and Youngstown, O.

### Board Meetings At Almira Home

Annual Meetings Of Directors And Trustees Take Place Tuesday

Board of Directors and Trustees of the Almira Home, East Washington street, assembled Tuesday in the home for the annual meeting, with Venango, Mercer, Butler and Lawrence counties represented.

Mrs. H. C. Harper, president, called the meeting to order at 11 o'clock in the morning and gave a welcoming address to the members.

Mrs. Thomas Irwin of Franklin led devotionals. Mrs. Rodger W. Rowland, recording secretary, read the minutes of the meeting in 1950. Reports were received of the auxiliary and personnel committees.

Reports were also given by the religious, donation, house, property and resident committees and the corresponding secretary.

Rooms, halls and stairways of the home were beautifully decorated with spring flowers. Lunch

### Gen. M'Arthur Declines To Give Further Testimony

By WILLIAM THEIS  
(I. N. S. Staff Correspondent)

WASHINGTON, June 20.—Gen. Douglas MacArthur declined today to appear again before the Senate committee investigating his removal but declared he is in "direct disagreement" with testimony given by some other witnesses.

The five-star general turned down the committee's invitation for him to reappear as Maj. Gen. Patrick J. Hurley went before the investigators to enlarge on his charge that Alger Hiss was responsible for the Yalta concessions to Russia.

MacArthur wrote chairman Russell (D) Ga., that in view of the "voluminous record" already taken in the six weeks of hearings he

### Court Action In Bus Strike Is Planned Today

Marshall Matheny, attorney for the Shenango Valley Transportation company at noon today, stated he would present a bill in equity to Lawrence county court relative to the city bus line operators strike.

The bill will ask the court to restrain employees, now on strike, from interfering with operations, and further, ask that an order be issued requiring employees to comply with the terms of a contract.

According to the attorney a contract between the company and employees which does not expire until May 31, 1952, calls for arbitration of any wage dispute.

Attorney Matheny will ask the court to set the date of hearing for next Monday.

### Huge Amount Of Wool Being Pooled Today

Indications Point To Record Crop Of Wool From District

Farmers from North Beaver township and Beaver county, who go in for sheep raising, will reap the benefit of the highest wool price in history this year, and the way the wool was coming in on the first day of the pooling of the 1951 crop, indications pointed to a record amount being pooled.

All morning long, a string of cars and trucks was lined up at the B. and O. freight station at Mill and Home street, as the wool growers waited their turn to have their wool weighed and graded.

Butler Wool Pooled  
In the gathering at Butler yesterday, for Butler county sheep raisers, a total of 25,000 pounds was brought in, the most in several years.

The largest amount pooled this morning was brought in by the Cook Anderson company, of Beaver county, which represented 550

PITTSBURGH, June 20.—(INS)—A five-alarm fire yesterday swept a paraffine and oil-soaked building which was being dismantled in the Lawrenceville district of Pittsburgh.

Three workmen and a woman were slightly injured. The building, owned by the Pennzoil company, is to be replaced by a Pennzoil terminal.

### Reds Lose Ten Planes In Air Fight In Korea

Hundred Planes In Latest Air Battle Over North Korea

By HOWARD HANDLEMAN  
(Far Eastern Director, I. N. S.)

TOKYO, June 20.—American pilots downed or damaged 10 Red fighters in a new, 100-plane battle over northwest Korea today, and Allied troops rammed farther into enemy buildup territory against varying resistance.

Big-scale sky combat raged for the fourth straight day—with 28 Communist planes hit since Sunday—amid growing signs the Reds may plan to hurl large air forces to the aid of their troops in an expected fresh offensive.

On the ground, United Nations tanks and foot soldiers, covered by intensive artillery and air barrages, chewed deeper into areas where Chinese and North Korean units were being reinforced and redeployed.

Enemy Contact Light

A Wednesday night dispatch by International News Service War Correspondent Robert Schakne from the rugged east-central sector said UN troops pushing up the east side of the Hwachon reservoir had their "lightest enemy contact in three weeks."

The Reds apparently had pulled back in that hitherto hotly disputed mountain area—possibly because enemy preparations for a counterattack were completed.

From the central front—farther west—INS War Correspondent Don Schanche reported Wednesday night that most Allied troops had spent "another day of watchful waiting."

Northeast of Chorwon, in the west-central area, Allied patrols met "moderate to stubborn" Com-

HARRISBURG, June 20.—(INS)—Republicans split over Gov. John S. Fine's budget were juggling figures today to weigh the need for additional taxation.

The governor is considering carrying his case to the people via a statewide radio address next week if the tax deadlock is not broken.

The administration also awaited an answer from the 11 GOP senators, opposed to Fine's recommended one half of one per cent income tax, to the governor's free-income statement that his \$1,200,000,000 budget for the 1951-53 biennium has been shaved to

### House Expects Final Action On New Tax Bill Thursday

By RAYMOND WILCOVE  
(I. N. S. Staff Correspondent)

WASHINGTON, June 20.—The house begins a quick two-day debate today on the 7.2 billion dollar tax bill with final passage expected tomorrow.

Democratic chieftains expressed confidence that the house will override all opposition and approve the new revenue legislation by 6 p. m. tomorrow.

They had one stumbling block to overcome before the bill can be taken up. Under the prevailing parliamentary situation, Rep. Rankin (D) Miss., is attempting to bypass normal procedure and call up veterans legislation out of turn.

Democratic whip Priest of Tenn., predicted the house will clear the way for consideration of the tax bill and postpone action on the

### Striking Air Lines Pilots Fail To Return

CHICAGO, June 20.—(INS)—Striking United Air Lines pilots today defied a National Mediation Board ultimatum that they return to work or face arbitrary suspension of further negotiation sessions.

The pilots' walkout, involving some 900 members of the AFL Air Line Pilots Association, was branded illegal and "inimical to the public interest" by the mediation board.

But David L. Behncke, president of the union, described the board's charges as ridiculous and declared:

"The pilots have followed all the rules. Until United Air Lines accepts our demands or shows some indication it is willing to deal, the strike will continue."

Grounded by the walkout were 132 transport planes that normally carry 9,670 passengers daily from New York to Honolulu. Thousands of pounds of air freight were left standing in terminals.

At airports usually served by United, passengers were being handled as far as possible by other lines, and the overflow transferred to trains.

### HYMIE LEVIN DIES

CHICAGO, June 20.—(INS)—Hymie "Loud Mouth" Levin, colorful Chicago underworld figure and top lieutenant for the late Al Capone, died last night in St. Luke's hospital from a lingering paralysis. He was 55.

Levin, who rose in the ranks of the Capone mob to become undisputed boss of gambling and vice in Chicago's loop district, had been confined to a wheel chair for several years.

The catbird is not such a beautiful thing and his song is like that of a crow, but whenever he moves to a nest in your yard, the other birds quickly must go. For a catbird's the bossiest noisiest bird, and will fight at the drop of a hat, if ever you trespass on what he calls home or bother his brush hidden flat. They're noisy and bossy and chase other birds, and fighting for them is just play, and watching them out in the yard is a lark, its damp 78 today.

## Cut Secondary Road

The bulletin spoke of "light" resistance along most of the eastern front. There Allied troops on Tuesday enlarged the deepest UN penetration into North Korea by cutting a secondary road which parallels the hairpin-curved Nam River at one point.

The severed lateral highway, situated 29 to 30 miles north of Parallel 38, winds inland from the eastern coastal town of Kansong which for weeks had been held by South Korean troops.

At the western end of the transpeninsular front the enemy put up "light to moderate" opposition during the day, the Eighth Army said.

The Reds offered their greatest challenge in the current bid for sky supremacy Wednesday when they sent propeller as well as jet planes aloft over northwest Korea where the enemy's main roads slant down from Manchuria.

Six Communist IL-2 and YAK-9 propeller-driven fighters and four Soviet-style MIG-15 jets were destroyed or damaged in the big aerial engagement that burst over Sonchon. The later junction of rail-haulway route at a point 35 miles southeast of Sinuiju on the Yalu River.

Attacking American Mustang propeller-fighter pilots shot down two IL-2s and one YAK-9 and damaged three others, of which one was listed as probably destroyed.

American F-86 Sabertooths, flying top cover, thereupon engaged 36 MIGs and damaged four in screaming dogfights that ranged down from 13,000 to 6,000 feet, the U.S. Fifth Air Force announced.

All the Sabres got back to their bases unscathed but the announcement did not state whether any of the Mustangs were lost or damaged.

There is one certain way to know that the Boyd Home for Funerals can provide the things you would want in a funeral—and at a cost you would consider reasonable.

That way is to come and look over the facilities we have to offer, and to visit our display room where all prices are plainly marked. You will find an ample selection and in a wide range of prices.

We invite this inspection and comparison because we believe that people are entitled to know more about funeral service and its cost before the need for such service arises. As we have said so often, there is nothing about our methods of doing business that the public may not know.

bring Russia into the war so as to prevent one million American casualties in a direct U. S. frontal assault on Japan.

Charges Made

The ex-secretary made his charges on NBC's "Meet The Press" program under questioning by reporters Frank Conniff, International News Service Correspondent recently returned from Korea; William White of the New York Times; Robert L. Riggs of the Louisville Courier-Journal, and Lawrence Spivak of Mercury publications.

Under questioning, Hurley said at first that his views about the responsibility for concessions made at the Yalta conference, Feb. 3-11, 1945, were based on hearsay evidence.

But one reporter pointed out that Hurley had written a letter blaming Hiss. Hurley then conceded that he still held that view.

Hiss, a former state department adviser, is serving a prison term at the federal penitentiary at Lewisburg, Pa., for perjury.

The senator, who is still awaiting a reply from MacArthur on whether he will return to the stand, will question two more witnesses before ending the investigation.

con was served at 12:30 o'clock to the directors and trustees in the pleasant dining room.

Afternoon Session

Mrs. Harper called the afternoon session to order at 2 o'clock and at that time, the treasurer, Mrs. James D. Crawford, gave a comprehensive report. Mrs. Crawford's report stated the balance and receipts from May 31, 1950 to May 31, 1951 totaled \$37,604.01, leaving a balance of \$24.40.

Mrs. Lola Harris, superintendent of the home, graciously welcomed the board to the home and told the members some of the little things about the 42 women that are now living in the home. She also told of the many outside interests of the ladies. Mrs. Harris thanked the members of the board for their cooperation and help in making the home a home and not a cold and formal institution as so many who do not know the home may think of it. She added that the employees of the home were very helpful and very loyal. As her closing statement, Mrs. Harris issued an invitation to the open house that is being planned for October.

An impressive memorial service was held for a departed member, Mrs. George B. Harbison.

Mrs. Harper declared the chair vacant during the election of officers and Mrs. Thomas Irwin of Franklin, presided.

## CALVARY CHURCH HONORS FATHERS

Fathers and sons of the Calvary Gospel Tabernacle were honored when a large group assembled at a suburban inn for their annual banquet. Singing of the Doxology appropriately opened the event followed by the invocation offered by Rev. John Bailey.

Rev. Howard Sartell, toastmaster, was introduced by Paul Boyle. The group joined in chorus singing with Rev. Bailey and Ronald Bailey, assisted at the piano by Francis Weir. Anthony Phillips brought greetings to the fathers and Elmer Delancy to the sons. A sextette of fathers including: Eddie Fritz, Jr., L. B. Round, Francis Weir, Howard Kimmel, Michael Koch and A. H. Robb sang "God Leads Us Along".

Gifts were presented to Mr. Body, the oldest father; Donald Bailey, youngest father; Merle Zeigler, oldest son and David Mooney, the youngest son. Gifts also went to the tallest, shortest, baldest and thinnest fathers.

Spiritual address of the evening was given by Rev. James Menzie, pastor of the First Pentecostal church, which proved inspiring and uplifting. He challenged the fathers to be real dads to their sons and also told the sons of their responsibilities as sons to their fathers. Rev. Sartell made a few choice closing remarks thanking the group for their attention and presence. The benediction was pronounced by Rev. Menzie.

## MRS. EDWARD BOGDON HONORED AT SHOWERS

Mrs. Edward Bogdon, nee Phyllis Spicer, was honored Monday evening at a miscellaneous shower given at the home of Mrs. Edward Bevan of Ellwood City with Mrs. William Crabb and Mrs. Robert Duncan as co-hostesses.

Games were the pastime of the evening and a delicious lunch was served by the hostesses.

On June 14 Sandra Smathers of R. D. 5 entertained at a miscellaneous shower at her home honoring Mrs. Bogdon.

Games were the diversion of the evening with prizes won by Miss Evelyn Spears, Miss Kathryn Spencer and Miss Helen Mangine.

Mr. and Mrs. Bogdon were married Dec. 16, 1950 by Rev. E. T. Clark, First Baptist church, Winchester, Va.

## CAROL CONNELLY FETED AT PARTY

Miss Carol Connelly, eldest daughter of Mr. and Mrs. E. B. Connelly, 102 Fairfield avenue, was feted on her tenth birthday anniversary, Tuesday, the party being held at the residence from 2 to 5 p.m.

Carol's parents were hosts for the lovely occasion, and approximately 25 friends of the honored gathered to help in the celebration.

Birthday games were featured, and at the close of play prizes were captured by Margaret Jane Feass, Marcia Butler, Sue Ann Guillery, Joycelyn Jordan, Mary Ellen Vatter and Carol Ann Schoellkopf.

Mothers of the guests also attended and they spent a delightful afternoon visiting with one another.

A birthday lunch was served by Mrs. Connelly at an appointed hour. A huge floral centerpiece and a birthday cake centered the main table, and appointments were carried out in pastel colors. Cut flowers were also used for decorations.

Carol received many lovely gifts in remembrance of the occasion.

## THE DOPES

It is difficult to decide how much to believe of the tales of widespread narcotics addiction in New York City high schools, but at best it is an appalling situation that a current inquiry is revealing. Marijuana, cocaine and heroin are being sold to and by students who have been lured into the drug habit by free samples.

When they find they cannot do without the stuff, the price goes up. Presently odd jobs will not pay for as much of it as they crave, and they turn to petty crimes. Even when they are caught and sent to detention homes, they find dope available there.

There were parents and teachers who never suspected their charges were dope addicts. And there were high school kids who not only acted like dopes, but were. Hadn't they been told anything at all about drug addiction? Didn't they believe what they were told? Or didn't they care?

In some ways, to be sure, the taking of habit-forming drugs may be less harmful than some lurid accounts would indicate. As a practical matter in today's world, however, the physical effects are the least of the damage. The drug addict becomes almost literally a slave—first to the dope itself, then to the punks who sell it.

How can adolescents, at the very age when freedom from restrictive authority becomes a compelling urge, put new and sinister shackles on themselves?

And why was everybody that should have been concerned with their welfare looking the other way? It looks as if nobody had really cared what happened to high school youth. Maybe that was the trouble.

## FUTURE IN TELEVISION

More than 100,000 television sets are now in use. Millions more will be in use as fast as transmitters can be set up in areas still unserved. TV has proved in black-and-white and will prove in color that it is one of the greatest of all mediums of communication. It operates in more dimensions than any other—in pictures, words and sound. Its effect on humanity is destined to be profound.

There will not be freedom of television comparable to freedom of press. Government is busily engaged in allocating the limited number of channels on the TV spectrum, and in other activities to control TV. Beginning July 9 the Federal Communications Commission will hold hearings to decide whether "commercial interests alone" are to operate TV transmitters.

What the alternative would be is intentionally left obscure. In March the FCC proposed that 10 per cent of the remaining channels be allocated to educational television. No taxpayer should harbor doubts as to who would pay for this.

The National Association of Educational Broadcasters—otherwise unidentified—says the new medium must not be "wholly captured" by those who want to sell toothpaste or automobiles or anything else. The association fears that TV will become only entertainment, often low grade, to the exclusion of real enlightenment and instruction.

It could, instead, become a mechanism of government propaganda.

## HIS FACE TO THE WALL

Finding in attics, barns and sometimes in antique shops of paintings of rare historical interest and considerable financial value sometimes occurs. But the last place one would look for such a find however, if the artist were Gilbert Stuart and the subject George Washington, would be the attic of an American embassy.

Yet such a painting was found on the upper floor of the office quarters of the American embassy at Madrid, its face to the wall. The finder was Rep. James G. Fulton of Pennsylvania, an art collector, who spotted the picture. Although neglected for years, it was in fair condition. The painting had been in the embassy since 1818.

It is amazing how a Gilbert Stuart painting of the first president could be stored as junk in the attic of an American embassy, while the American Museum of Art in New York exhibits another original of the same artist on the same subject with pride. At all events, the Madrid Stuart has been transported to Washington, where, if a place can be found, it will hang in the Capitol building.

Gilbert Stuart (1755-1828) was an independent and original master of portraiture. His pictures of the first president were most famous, both of the artist and of the sitter.

A Los Angeles one-year-old has already cut 16 teeth. Wait until he finds out there's a beefsteak shortage.

An Austrian claims he walked a tight rope for 84 hours. Probably was in training to become an international diplomat.

A tape recording machine to repeat advertising slogans endlessly has been invented. The radio had better begin looking to its laurels.

Woodrow Wilson said democracy releases the energy of every human being. This is especially true when the populace becomes determined to get something from the government treasury.

Washington still hasn't recovered from the shock of the rude recommendations of General Wedemeyer, who said the U.S. should stop petting "Uncle Joe" Stalin and kick him in the teeth.

## World Communism Takes Blow

World communism has taken a severe beating in France's latest parliamentary elections but all signs point to a possible long period of political disunity and haggling in the national assembly.

Despite a heavy popular vote, the communists lost many of their seats in the chamber by virtue of a new electoral law.

This was a frank and open creation of the middle-of-the-road parties to keep the communists out of office.

The maneuver succeeded. But it also had the curious effect of making Gen. Charles De Gaulle's right-wing rally of the French People party the strongest single group in the assembly and the outcome is unpredictable.

Two things are certain, however: The government, a coalition of centrist groups ranging from conservative to socialist, will have to give heed to De Gaulle's principles and the sentiments of the very large percentage of the population which voted for his candidates.

It will have to jockey and bargain continually to ensure its majority and while Premier Henri Queuille is convinced that the ballot was a victory for French republicanism, his position is none too secure.

One of the important and redeeming factors of the election is Gen. De Gaulle's strong support of French and western European rearmament against the menace of communism.

To be sure, De Gaulle does not see eye to eye with the incumbent government, which he accuses of having sold its birthright and sovereignty to the United States.

He wants France to re-arm on its own, stand aloof from alleged American patronage and reassume its old traditional position as the leader of continental Europe.

Some Obscureness  
There is some obscureness as to just how he would have France achieve these ends. He has political opponents have accused De Gaulle of seeking a dictatorship and say that the broad policies he has outlined with regard to economy and the like are absolutely inoperative in anything but a "one-man" government, with the people chained to a bureaucratic machine.

It is clear that the bulk of the electorate wants the present type of parliamentary regime in power, even though the latest succession of premiers has been criticized in many circles for alleged weakness and hesitancy.

The fact of the matter is that France has been in an equivocal position while awaiting these elections and it may not have been possible or practical for it to take swift and forthright action in one crisis after another.

May Strengthen Government  
It is entirely possible that the election result eventually may

strengthen the government's hand but political observers foresee a considerable period of uncertainty still ahead.

All surveys indicate that the communists did suffer severe losses.

This was in spite of the fact that many Frenchmen who vote the Red ticket are not communists in the strict sense of the word nor are they Soviet sympathizers.

Many communist votes were mere protests against the middle-grounders, recorded by people of varied political leanings who do not like the present vacillation but who are equally opposed to the sort of regime that De Gaulle stands for.

Despite all the criticism it has encountered, the present French government is not without its astute planners.

Attains Great Stature  
Foreign Minister Robert Schuman has attained great stature. His plan for fusion of French and German coal and steel resources is still in the blueprint stage but it has many major virtues and contributions for the pacification and collaboration of continental Europe.

The middle-of-the-road planners also have extensive projects for the pooling of agricultural, electric and shipping resources among the continental countries.

And they feel that they have not done badly in finances despite black markets which would have ruined the economies of nations less stable than France itself.

The French government may not have a smooth and happy future. But it at least is a shield against extremism and this in itself is a valuable example for all the rest of Europe.

## One Man's Opinion

By Walter Kiernan

My barber says the fellow who was buried alive in Poland for six years hasn't missed much.

When he was trapped in 1945 the Russians were advancing and when he was released in 1951 they hadn't backed up any.

He was surprised when he heard the allies had won the war and more surprised when he found what they had done with the peace.

He didn't say he wanted to crawl back in his tunnel, but give him another couple of weeks above ground and he may get homesick.

In fact some of our Washington worry weepers would have us all in caves. It's not that they are frightened of anything in particular. Just everything in general.

This is one of the few times in our history that we have been assured we are the strongest nation on the earth and we had better go hide. All in the same breath.

Not that the Republicans should complain. They've been waiting for vacancies in those Washington buildings for years.

## Just Folks

THE DENTIST CALLS

My dentist called me on the phone today to say: "Six months have flown!"

"That's very good of you," said I. "It's strange how swiftly time goes by."

"Six months of twelve have gone! Well, well! That's news I'm glad you called to tell."

Had you not told me doctor, dear, I might have thought they still were here.

"Where have they gone? Can you explain?"

How did they travel, car or plane? Some information still I lack. Did they leave word when they'd be back?"

"Cut out the nonsense!" he replied. "It's time again to 'open wide.' Nine-thirty, Tuesday, is the date to scrape your teeth. And don't be late!"

Lo and behold . . . don't look now . . . but your TV is showing. That is the way a certain TV viewer started employee was greeted by his boss the other morning . . . and upon closer examination the statement had some truth. After the first shock of the comment went off . . . and the employee's eyes began to clear, the story came out in full. Seems as if he was like a lot of other folks . . . liked to watch rasslin' but he was as he stated it . . . carried away with the commercials. Every time the commercial asked him to use their product, he went to the refrigerator . . . well, now he didn't hear the sign-off and the next morning his TV was showing . . . it was one of those evenings when the 30 minute time limit didn't materialize.

At the Rotary Club the other Monday some of the businessmen got to talking about movies . . . Yes, they do talk about things other than business. One was telling about a dandy movie he had just seen . . . and we mentioned that we liked the sequel of "Father of the Bride" . . . several more chimed in and the conversation moved right along . . . sitting in the middle was a lumber dealer . . . he said nothing but seemed most interested in the movie talk . . . about the time the weekly speaker got started someone asked this brother about his ideas on current movies . . . Oh he said, I'll make that comment in about twenty years . . . When they show 'em on TV.

We keep our TV set down in the basement . . . or the lower level as we call it. Makes it much more interesting to entertain visitors in the living room . . . really can visit . . . folks go calling nowadays to get away from it all . . . and not to see the screen as was the order a little over a year ago.

Times sure change . . . only fifteen years ago . . . one of our college chums got married and the school asked him and his bride to leave. In last night's NEWS we see a picture of a graduate holding her new born child in one arm and a diploma in the other, hand . . . and it stated that the Commencement Speaker and the President of the college made a special trip to give the young lady the diploma. Time marches on!

## What Have We Done?

(By HENRY McLEMORE)

Suggestion to a historian of 2051: Write a history of the United States between the years 1946 and 1951 entitled, "The Country of Recommendations That Didn't Come Off, or the Country With the Highest Ideals But Lacking Backbone."

That would be a long title for a book, but it would be a true title. Probably wouldn't be a best seller, or even a good poor seller, because Man changes slowly, very slowly, and in 2051 is a good bet to be reading trash, even when he trembles.

Best Country In World  
There is no doubt that this country is the best country in the world. By "best" I mean it has more people with less to worry about than any other people in any other country on earth, yet they still manage to worry more than all the others combined.

We have riches. We have distance from the troublemakers. We have the best know-how. We have the strongest kids in the world. We are dead game. The boys in Korea are the latest to prove that quality which traces back to the Revolutionary musketeers.

Yet, about all we do is recommend. We recommend that tens of thousands of citizens could leave their civilian jobs and release tens of thousands of soldiers to combat duty. Fine recommendation, but nothing will be done about it.

I'll use myself as an example. I am capable of doing it. I don't know how many army jobs that are now being done by men who could do a combat job. But here I sit—as thousands of others are sitting—going on with my civilian work.

Why Not Call Us?  
Why not call us, if, as our national leaders say, we face the greatest crisis we have ever faced? The Hoover Report recommended: Applause! Applause! Applause! Great report.

But what has been done? Nothing, or so near to nothing that you could catch the results in a cat-snip bottle.

It was recommended that India get wheat, of which we have a slight surplus. Well, when the wheat finally gets to India, there will be more pounds of starved Indians than there are pounds of wheat.

We recommend that the men who live off gambling, who, with the money they make, are able to control many of our great cities, be put out of business. Yet, right this minute, in New York, I can call a number and bet with a gambler for any amount I care to. And he isn't a new gambler, either. And if I can do it, millions can, from here to California.

What Have We Done?  
We recommended that the selling of dope to school children be stamped out. But the government has yet to suggest, or pass a law, that the first man convicted of selling dope to a youngster die in the manner prescribed by the State in which he was convicted.

We recommend peace, but what have we done about it? Fight the nation that makes it impossible? No, just hack away at the stooge, with the loss of men and boys who can ill afford to lose, and who shouldn't have died without the knowledge they were dying for something they country had declared was evil.

I'm telling you, it makes me sick. And the only reason I can stand the sickness is that I know, in my heart, just as many other Americans are as sick about it as I am. I'm just a little voice crying in the political wilderness.

## They Say

WASHINGTON—Former Presidential Aide Jonathan Daniels: "I think he'll run again. The more they attack his (President Truman's) foreign policy the more determined he gets. He fights with both hands."

SAN FRANCISCO—Gen. Albert Wedemeyer: "Today it is either enslavement or liberty; survival or extinction."

PARIS—U. S. Admiral Robert W. Carney, named commander of all allied forces in southern Europe: "I won't let any grass grow under my feet. Wherever a striking force is necessary in the Mediterranean we will be there."

CARMEL, Cal.—Hedy Lamarr announces on her honeymoon she is going to auction off virtually all her possessions: "I want a completely fresh start. There must be no reminders."

## Try And Stop Me

By BENNETT CERF

Some months ago, a collection of wealthy ornithologists in New Jersey triumphantly announced that they had tracked down the nesting grounds of a very elusive bird named the bristle-thighed curlew. This name, for some reason, caused readers to begin inventing ridiculous species of nonexistent birds, the craziest of which were duly listed in Tide, the advertisers' magazine. Examples: the tufted dowager, red-eyed cross-patch, double-breasted seersucker, electric crane, weekend bat, vested interest, bleary-eyed hangover, and extra-marital lark.

A native of the Ozarks was asked by a revenue agent, "Seen your grandpappy lately?" The native pointed with his cornucopia pipe to an indistinct object at the far end of his tomato patch and said, "See that figger over there? It's either a tree stump or grandpappy. Keep your eyes open on it. If it moves it's a tree stump."

### FISH DAY

It used to be that it was economical to eat fish because each family caught them themselves. Nowadays they cost about the same as other protein food.

Fish makes a nice variety. There are so many different kinds that anyone may be suited.

Everybody needs proteins and carbohydrates and fat. Fish is a good source of protein.

The people of some countries do not have any kind of meat except fish.

They seem to get along as well as we do.

Perhaps the use of more fish would add necessary variety to our diet.

# Nothing Simple About It

(By HOLMES ALEXANDER)

WASHINGTON, D. C., June 20.—Now that it's nearly over, the MacArthur inquiry reminds you of the interpretive dancer who hoofed it all over the stage for two hours and was then asked by the music critic to explain the meaning of her dance in a couple of sentences. She said:

"Monsieur, if I could explain it so briefly, I wouldn't have taken so much trouble to dance it out."

Thus there's no way to summarize the MacArthur Ballet in a few well-chosen words, and this is probably why most efforts to do so look very foolish and futile. But if the testimony of one witness can be said to epitomize the whole show, it would be the testimony of Lieut. Gen. Wedemeyer.

## Most Confusing Witness

Why Wedemeyer? Because he was the most confusing witness of them all. Confusion is the theme and central substance of our Far East problem, so it's inescapable that sage comment upon it must also be confusing. The one sure mistake that anybody can make is to offer simplifications of the matter. That is where President Truman and Gen. MacArthur both went wrong, the former in defending Administration policy and the latter in condemning it. You cannot wrap up a complicated subject in easy-to-remember phrases. It takes complex, even contradictory, testimony like Wedemeyer's to present a problem that is complex and contradictory in itself. The Wedemeyer story in digest form might run somewhat as follows:

1. Practically everybody at some time or other has been dead wrong on Far East policy between 1945-51. President Roosevelt and his State Department advisers were wrong at Yalta when they bribed Russia to break the peace with Japan and to stab her in the back. This was worse than an immoral act on our part; it was a military blunder in not knowing that we didn't need Russia to help us push over a beaten enemy. But MacArthur was also wrong when he refused to send those seven American divisions to occupy Manchuria. He evidently believed that Japan, not Manchuria, would be the postwar trouble spot. The Truman Administration was wrong in striking a holier-than-thou attitude that the corrupt government of Chiang Kai-shek wasn't good enough to fight Communists. Most of this, of course, is second-guessing and deserves no special credit, but second-guessing is what an investigation is for.

## No Disloyalty Proven

2. Although everybody has been wrong at times, nobody in high authority has been proved guilty of disloyalty. Much has been written and spoken about the "sell-out" of China to the Reds, but the investigation has not substantiated the charge. It's certainly true, although denied, that many State Department officials did look upon the Chinese Reds as "agrarian reformers" and did half-heartedly hope that an agrarian revolution would bring some order out of the incredible chaos of Chiang-ruled China. But until there's proof of guilt, we'll have to call these mistakes. But judgment, much as the present support of Titoism in Yugoslavia may turn out to be a mistake in judgment. Yet such mistakes can be fatal, and they are reason enough to remove all the wrong-guessers, including Secretary Acheson, from office. Their poor judgment, if nothing else, makes them untrustworthy.

## Korean Adventure Is War

3. Although the Korean adventure has been called by sweeter names, it is war—possibly a war in which we are trapped with no dependable allies. For that reason Wedemeyer advocates that we either pull out of the Korean "bottomless pit" and mobilize for continental defense, or that we stop kidding and start a bombardment-blockade that will punish China and maybe force a fight with Russia. This second alternative (the mongering of World War III) is so fearful a thought that Wedemeyer hedges a bit (as who wouldn't?). But he makes it clear that probably our best choice is to come home from Asia or to "go it alone" against China and maybe Russia.

Confusing? Complicated? Of course it is. Why expect global power politics, which is what we're playing, to be anything else? (Distributed by McNaught Syndicate, Inc.)

## Looking At Life

By ERICH BRANDEIS

We men have done our women a grave injustice. I am told in a letter from a man who certainly ought to know.

Not that we ought to know ALL about women. What male does? No matter how long a man has been married or how long he has been gallivanting with them as a bachelor—he will never know ALL, or even very much, about women.

But one thing this man who accuses me and my whole sex of injustice to women DOES know, is their shopping habits.

And he insists that women are much better shoppers and make their decisions much more quickly than men.

"From my vantage point as president of a department store in Allentown, Pa., writes Max Hess, 'I have had ample opportunity to observe the behavior of women buying a hat or any other other item of wearing apparel and household furnishings.'"

"On the basis of my findings I should like to appeal to the chivalrous instinct in my fellow males to right the wrong they have done to the distaff side of our population."

Mr. Hess' store is the largest in Allentown and does a business of some 20 million dollars a year, mostly with women.

So its president must know more about women's shopping habits than I do.

Yet, my experience, though limited, is entirely different from his. A big New York store recently opened a branch here in our town and among its departments is one selling men's stuff.

We welcomed the addition; we needed such a store.

Last week I went there to buy some pajamas.

I couldn't get near the men's counter. Women, women, everywhere.

I waited patiently and couldn't help overhearing the conversations going on among the women.

It seems that every one of them had brought a friend to help her decide what to buy.

One wanted a pair of shorts for her husband. The perspiring clerk had shown her and her friend eight or ten different styles and colors. The two women went yak-yak.

But Mr. Hess writes: "When a woman comes in to buy a hat . . . she has invariably decided upon the color and ornamentation which will best complement her wardrobe. It only remains for her to choose a becoming style."

"Her reputation for fickleness comes from the universal habit of trying on some 15 to 50 chapeaux before finally selecting the one which she believes is most becoming to her."

"Similarly she will sample one against the other in selecting her purchases of household goods as well as clothing."

"However, in the mind of the impatient male, her thoughtfulness and care are invariably mistaken for indecision."

All of which reminds me of the old proverb: "The man who hesitates is lost; so is the woman who doesn't."

# D'Agostina Is Given Parole

## Suffers Heart Attack After Being Given Court Sentence

Joseph D'Agostina, Youngstown racketeer, is a free man. This morning Judge W. Walter Braham paroled D'Agostina from a year's trip to the Allegheny county workhouse after he had pleaded guilty to a charge of running number slips between New Castle and Youngstown.

**Fine And Costs**  
D'Agostina was fined \$500 and costs, the total of which comes to \$1118.25. These are divided as follows: costs of the case \$143.10; services of Dr. David Perry, \$60; services of Dr. Wilbur E. Flannery, \$104; Jameson Memorial hospital, \$311.15. In addition to all of this the county had previously confiscated \$332 numbers money.

D'Agostino had a \$1000 cash bond deposited for his appearance and a \$1400 cash bond to insure the payment of his doctor and hospital costs.

In April he was arrested near the Ohio line with a bundle of numbers slips in his possession and also \$720 in cash. The numbers slips were concealed in a tin can welded to the under side of the left front fender.

**Sentenced To Workhouse**  
He pleaded guilty and was sentenced to one year in the Allegheny county workhouse. Before he could be taken to the workhouse he had a heart attack and was taken to the Jameson Memorial hospital where he has been ever since. Doctors testified he had a bad heart and the parole today followed.

Of the \$720 he had on him at the time of arrest, \$400 was returned to him as his own money and \$320 was ordered paid into the county treasury. The total cost of the case to D'Agostino was \$1438.25.

## Heard At Opening Of Eagles Auxiliary State Convention

W. E. MANNING

Warner E. Manning, Kansas City, Mo., assistant director of ladies auxiliaries, addressed the opening session of the convention of the Fraternal Order of Eagles auxiliaries of the state of Pennsylvania Tuesday afternoon at the Eagles home, South and Jefferson streets. A large number of delegates from all parts of the state were in attendance.

**Over 130,000 Members**  
Mr. Manning spoke on the worth while work the ladies auxiliaries are doing. He said there are now 1,032 auxiliaries with over 130,000 members throughout the country. He told of the work the women could do in their own communities in helping all civic organizations and especially toward youth guidance.

"The aim of all auxiliaries should be helping others, having fun and securing more members," he said.

State President Mrs. Kay Guy presided at the meeting. Initiation of candidates was conducted by the McKeesport auxiliary. Welcome addresses were given by Mayor John F. Haven and Past Worthy President James "Bud" McCracken of New Castle Aerie No. 455.

**Among Speakers**  
Remarks were given by Mrs. Frances Bentley, state secretary of New York auxiliaries; Mrs. Alta Browning, state president of Ohio auxiliaries, and Miss Ober of Springfield, O., assistant to Administrative Director M. L. Brown. Mr. Manning, Mrs. Guy and Mrs. Cecelia Jackson were guests at an interview over WKST at 12:45 p. m.

Nomination of officers was also held at the meeting. At the close of the session a display of drill work was presented by the Homewood-Brushington auxiliary team. A program of entertainment was featured at 8:30 and refreshments were served at midnight.

# SIX Seventh Ward New Pastor To Assume Duties

Dr. Louis Worley To Preach Sunday

Mahoningtown Presbyterian church will greet its new pastor Dr. Louis A. Worley of McKeesport, as he begins his duties at the Seventh Ward church on Sunday, June 24. The church has had a moderator for seventeen months since the resignation of Rev. Howard Redmond quite some time ago.

Dr. Worley, who has had many years experience as a minister of the Gospel, served at New Waterford, Ohio for five years. For eight years he ministered at the Lodge Avenue church of Toledo and another 19 years and nine months at Mt. Vernon and Sutterville, Pa. Following these pastorates, Dr. Worley served as a supply minister for five and a half years in a number of Florida churches.

The new ward pastor is a native of this district, having been born in Mercer county, four miles north east of Mercer on the Mercer and Sandusky Lake road. He earned his B. S. degree at Fridonia Institute; his A. B. at Grove City College; his S. T. B. and S. T. M. at Western Theological Seminary, Pittsburgh. Dr. Worley's S. T. D. degree came from Milton University at Baltimore and his Ph. D. from the University of Colorado. The latter two were received through a correspondence course.

The former moderator and interim pastor of the Presbyterian congregation, Dr. J. W. Creighton, completed seventeen months service at the church on Sunday, June 17. Dr. Creighton is a professor at Westminster College. Dr. Worley will take up residence at 700 West Clayton street and will be ready to serve the needs of the congregation upon his arrival in the city.

Suitable installation services are being planned by Shenango Presbytery of which the church is a part.

## Simpson Church Special Program

Simpson Methodist church, North Liberty street, presented a joint children's and father's day program on Sunday in the church with Mrs. Isaac Llewellyn, assistant superintendent in charge, assisted by other members of the Sunday school staff.

The well planned program opened with prayer by Joseph Eyer, Sr., followed by a prayer response given by Mrs. Llewellyn and Mrs. Eyer. The following boys and girls were presented in special selections: Wylie Cutshall, Lillian Selig, Darrell Harvey, Joyce Harvey, Judy Ritchie, Bobby Eyer, Caroline Helusko, Patricia Dunlap, Roxan Parou, Patty Parou, Peggy Beaman.

Older persons participating, included: Mrs. Llewellyn, Mr. Roberts, Mr. Metz, with presentation of the oldest and youngest father handled by William Alexander, superintendent of the school.

## Women's Circle To Have Family Picnic

Junior Women's Circle of the Mahoning Methodist church will motor to East Palestine Park on Thursday, June 21, for a family outing. Arrangements are being made to transport the group to the park with those having no cars to be taken care of by other members of the group.

The outing will wind up the group's regular meetings until fall with the exception of a special event to take place at the church on Tuesday evening, June 26. Virginia Berry is recording secretary of the organization.

## Sister M. Aidan Of Pittsburgh Drowns

SEA ISLE CITY, N. J., June 20. —(INS)—Sister M. Aidan, a Pittsburgh nun affiliated with the Sisters of Mercy, drowned yesterday when she stepped off a ledge into deep water at Sea Isle City.

Another nun bathing with her was rescued. The accident took place along an unprotected beach. Sister Aidan was vacationing at the Pittsburgh Sisters of Mercy convent at Sea Isle City. Convent superiors refused to reveal the name of the rescued nun.

Both nuns were brought to shore by Edward Kennedy, 17, Philadelphia, and John Burke, 17, Sea Isle City, who were swimming nearby.

Burke applied artificial respiration on Sister Aidan assisted by two members of the beach patrol.

THE FAMOUS *Acrosonic* DESIGNED... BUILT... GUARANTEED BY *Baldwin* to enhance the beauty of your home

Beautiful in appearance—yes; but its greatest claim to fame lies in its voice and its response to the pianist's touch. The tone of the Acrosonic is so rich and full, and the action is so light and responsive, that playing becomes an absolute delight. Your children learn faster too on an Acrosonic because of these qualities. Choose an Acrosonic for your home. There's just no finer small piano. You'll realize it the minute you play one, and the thrill of owning a Baldwin-built spinet lasts. You'll always be glad you chose an Acrosonic.

## Huge Military Building Program Given To Congress

WASHINGTON, June 20—(INS)—Defense Secretary Marshall asked Congress today to approve a \$6,561,262,000 building program—matched only once in World War II and more than double the current rate of military construction.

The lion's share of the new money, under a proposed bill sent simultaneously to the House and Senate armed services committee would build Air Force bases at home and abroad.

The Air Force would spend \$3,584,480,000, and the Army and Navy \$1,831,028,000 and \$1,145,753,000 respectively in construction to be started and for the most part completed in the coming fiscal year.

The giant program is less than eight billion dollars that had been reported under consideration the the Defense Department, but is larger than any previous military public works bill except one for the Army and Air Forces in 1943.

General Secretary Robert L. Meermans of the Central YMCA in New Castle, Edward Allen, executive secretary of the Sherrago Street branch, and Ray McHenry, member of the committee of management of that branch, will represent New Castle at the YMCA Centennial Convention in Cleveland this week from June 21 to June 24.

Paul Douglas, senator from Illinois will address the convention as main speaker, and other speakers will include The Rev. Ralph W. Sockman, the UN's Dr. Ralph J. Bunche, and Dr. John R. Mott.

Termites do \$45 million damage in the United States annually.

## Plan Installation At N.S.A. Chapter

MAN CUTS FINGER

Sam Wilson, aged 61 years, of Wampum, was treated at the Jameson Memorial hospital Tues-

day morning, for a laceration of the right index finger. Mr. Wilson, an employee of the Pennsylvania Railroad Co., was injured when he cut his finger on a steel plate, while pulling weeds, along the right of way of the railroad company.

## Phoned Too Often; Held By Police On Stabbing Charge

WILKINSBURG, Pa., June 20—(INS)—An ex-convict was under arrest today for the stabbing of a Wilkesburg waitress because, police said, he phoned her too often to offer a "settlement".

Police charged Lloyd Robinson, 36, of Pittsburgh with felonious

assault on Mrs. Carol Marie Phillips, 34. She has recovered.

Robinson was arrested yesterday in a nearby Rankin saloon, according to Police Chief James Harris, of Wilkesburg, but the arrest was kept secret overnight.

Mrs. Phillips, the daughter of Police Chief Edward Schohn of nearby Ross township, was stabbed in the chest and left side last May 29, by a negro who followed her from her car stop.

Soon after she had recovered, and had returned home, she got a telephone call from a man who

said that he wanted to pay her hospital bill or her rent.

He explained, Chief Harris said, that he had stabbed her by mistake—that he was after another girl who owed him money.

He phoned three or four more times, but he talked to Mrs. Marie Marsh, who owns the house there, and to Miss Mildred Levine, a friend of Mrs. Phillips.

Mrs. Marsh, acting on the instructions of police, kept him on the phone for 25 minutes yesterday and police traced the call to the saloon.

## Fastest Movement Ever Recorded By Man Is Reported

PASADENA, Cal., June 20.—(INS)—Palomar observatory's "big eye" has clocked a system of stars that is hurtling through space at a speed of 38,000 miles a second, fastest significant results of extragalactic research to be reported since the 200-inch telescope went into operation on Mount Palomar 20 months ago.

Milton Humason, secretary of the Mount Wilson and Palomar observatories, made the report on the new work of the Astronomical Society of the Pacific.

The society is meeting in conjunction with the 32nd annual meeting of the Pacific division of the American Association for the Advancement of Science.

Palomar's greater space penetrating power enabling Humason to photograph the spectrum of the fast-moving galaxies. Mount Wilson's 100-inch telescope previously had clocked apparent motions of 25,000 miles a second.

Humason explained the campaign to search the outer reaches of the seable universe was expanded more than eight times by the arrival of the "big eye".

The scientist said determination of whether the tremendous speeds are real and indicate an "exploding universe" or not remain questions to be settled by astronomers.

## Department Clerk Leaves Large Estate

PHILADELPHIA, June 20.—(INS)—A municipal department clerk who never earned more than \$2,990 annually in 37 years service with the city has left an estate valued at more than \$140,000.

An inventory of the estate of Henry R. Armstrong, a bachelor who died last month at the age of 73, disclosed that he willed \$134,000 to a Mt. Holly, N. J. hospital.

Armstrong was a native of Mt. Holly, but left there 50 years ago. His fortune was not derived from his salary, however, but from stocks and cash inherited from his family.

According to Leo P. Callen, chief of the city bureau of street cleaning where Armstrong worked, the deceased had taken a job "merely to have something to do".

Gallen said Armstrong was "a very successful operator in the stock market". He termed him a "good employee, a clean-living man who neither smoked nor drank".

## Gordon Gray May Head Strategic Warfare Board

WASHINGTON, June 20.—(INS)—The White House said Tuesday that Gordon Gray, president of the University of North Carolina, is under consideration to head the government's new strategic warfare board, but that no final decision has been reached.

Gray, former secretary of the Army, conferred with the President about the appointment yesterday, but made no comment as he left the White House.

The new board is now in process of being formed but Mr. Truman has not yet signed an executive order officially setting it up.

## Folks Of Fame

Pres. Kemal Ataturk, Turkish soldier and statesman was born in Salonika, educated in military school where he was such an able student that he was given a distinctive sur-name which meant perfection. He was arrested and exiled often, for disagreeing with the powers that were in control. He distinguished himself in World War I when his country was an ally of Germany, although he was convinced that Germany was doomed to defeat. He organized resistance parties and was the heart and soul of Turkish national resistance in the Greco-Turkish war of 1921. He was appointed generalissimo of the Turkish forces with unlimited power. When the republic of Turkey was proclaimed in 1923, he was unanimously elected the first president, in which office he served until his

death. He emancipated Turkish women, established complete equality of the citizens, introduced universal education and advocated the democratic forms of life. He died on November 10, 1938.

Arthur S. Fleming was born in Kingston, N. Y., June 12, 1905. He was instructor in government and debate coach of American university, then a member of the editorial staff of a daily newspaper. He has served as president of an Ohio university, as chief of the labor supply in 1941, 42, during World War II; a member of the Manpower Survey board of the Navy Department and the War Manpower commission and other labor posts. His latest job was given him by the director of the Office of Defense Mobilization, Charles E. Wilson, that of directing the government's Manpower Policy committee.

The average American consumes 18 pounds of coffee a year.

## Most Abuses Of G.I. Training Are Found In State

PHILADELPHIA, June 20.—(INS)—Congressional probes charged today that more abuses of the G. I. training program have been uncovered in Pennsylvania than any other state in the Union.

The accusation was made by a House subcommittee and was based on hearings held at Philadelphia, Harrisburg and Pittsburgh.

Rep. Olin E. Teague (D) Tex., committee chairman, said that the U. S. Attorney's Office will be asked to take criminal action against operators of two G. I. training schools in Philadelphia. Teague's committee departed for Washington yesterday after a two-

day investigation into use of government funds by G. I. schools in the Philadelphia area.

## Dr. Fletcher Takes Office

New Lions Officers Installed Tuesday

Dr. Thomas J. Fletcher was formally installed as president of the New Castle Lions Club, at the weekly noon luncheon meeting, in The Castleton, Tuesday, being installed by International Counselor Fred Ande, who is also past District Governor.

Mr. Ande, in installing Dr. Fletcher, pinned the president's pin on his lapel, and also the first vice president's pin, upon William W. McCombs, J. Arthur Meek of the local club, who is also a past District Governor and International Counselor pinned the past president's pin on retiring president Harry Helmick.

The new officers will begin their terms at the first meeting in July. Those installed in addition to the two named above, are: second vice president, Dr. A. L. Hofmaster; third vice president, John F. Henderson; Lion tamer, William S. Smit; tail twister, George D. Wilson; sky pilot, Rev. Stephen Kolcun; new directors, Dr. A. H. Borland, Earl T. Ramsey, and Charles Lumley. Roy F. Conway was installed as secretary and William G. Schmidt, treasurer, having been elected to these offices by the board of directors.

Holdover directors, in addition to those elected, along with retiring president Harry Helmick, are: Sam Rashid, Paul G. Dingley, Dr. W. E. Flannery and Charles J. Streib.

**SHOES**  
NEW YORK — Those steel-toed safety shoes that are standard safety devices in America's steel mills and in many other industries are now striking a stylish note. Steelways Magazine reports that the shoes, which now come in a variety of colors and designs, have begun to achieve a social position of their own. Workers at one steel plant, the article says, wear their safety shoes to church, to the movies, and even to dances.

**Did You Know that MARVEL Bread Is An Exceptional VALUE?**

**Did You Know that MARVEL is Backed by A&P's Liberal Double-Money-Back Guarantee?**

We make no exaggerated claims for Marvel Bread. We use no secret process to produce it. Marvel goodness and freshness spring only from the use of finest ingredients, properly blended, and baked as carefully as you would bake at home.

You Have Your Choice of Many Different Varieties of Marvel Bread Every Day

● \*Penny for penny, Marvel Bread contains more nutritional benefits than any other bread among America's 10 leading brands. Marvel gives you more proteins, minerals and vitamins... more enrichment than government standards require.

● Every feather-light slice of Marvel is deliciously soft and tender because it's dated fresh. The freshness date is plainly printed on the end seals of every wrapper. And freshness is so important — for when freshness fades, flavor fades.

● Marvel Bread is unsurpassed for fine flavor because its specially rich formula calls for more expensive flour and the best quality ingredients.

● Penny for penny, no other bread among America's 10 leading brands gives you more for your money than Marvel Bread.

● Double your money back if you don't agree no other bread, among America's 10 leading brands, offers a finer, fresher, more nutritious bread, and better value, than Marvel. Today — buy Marvel — bread at its best.

## Nearly Normal Cattle Shipments Sent To Markets

CHICAGO, June 20.—(INS)—Farmers continued to ship nearly normal supplies of cattle to market Tuesday, indicating that the holdback by stockmen which precipitated a beef shortage is over. Cattle receipts at the nation's 12 leading markets totaled 44,600 head, a substantial increase over last Tuesday's supply of 37,300 but still under the normal run of 50,700 a year ago.

Office of Price Stabilization officials said the 5,500 head of cattle marketed in Chicago were "typical Tuesday shipments." Today's run was 130 head more than last Tuesday and 504 head below a year ago.

## Huge Inflation Cost Shown By Johnson

NEW YORK, June 20.—(INS)—Economic stabilizer Eric Johnston says inflation has cost American consumers 21 billion dollars since January of 1950.

Johnston said in an address last night that price and wage controls are essential, probably until 1953, but added:

"I want to head the parade for removing controls. We can do that when our productive capacity is sufficiently ample to supply both our military and our civilian needs."

## You save time when you call by number

You'll save yourself time these busy days by keeping a list of the out-of-town telephones you have occasion to call.

When you call by number, the Long Distance operator doesn't have to consult "Information," and your call goes through much faster.

That means better service for you—and better service for all America, right now when telephone lines are carrying urgent industrial and military calls.

P.S. If you'd like a handy Personal Telephone Directory for recording those out-of-town numbers, just call or stop in at the nearest Business Office. Then list 'em lest you forget 'em!

The trucks that do the most for you.

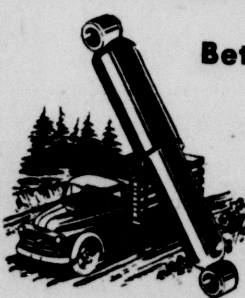

**NEW DODGE "Job-Rated" trucks**

...with features you've always wanted

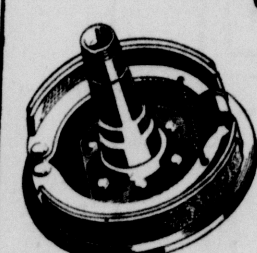

### More power with thriflier performance

You'll get power to spare—with economy to boot! Eight Dodge truck engines—94 to 154 horsepower—have power increases up to 20%. High compression gives flashing performance with less fuel. For year-in, year-out economy and dependability you get 4-ring pistons with chrome-plated top ring, "hotter" spark plugs (on models through 1 ton), heat-resisting exhaust valve seat inserts, 45-ampere generator, moistureproof ignition, and many other features.

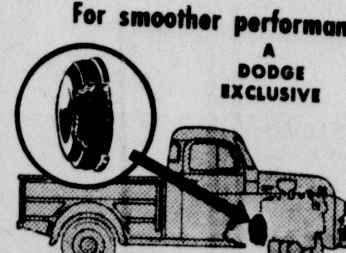

### Better load protection... easier handling

Load and driver get the smoothest truck ride ever known! Revolutionary new "Oriflow" shock absorbers on 1½, 3½, and 1-ton models smooth out bumps and jolts on any road... greatly lessen driver fatigue. And driving is made even safer with easy-acting, worm-and-roller steering gears on most models. To add to safe handling, you also get cross-steering, shorter wheelbase, wide front tread, and shorter turning diameter.

### Greater safety for both driver and load

Cyclebond brake lining on all models assures positive, smooth stops with long lining life—because there are no rivets! A brand-new development—Tapered Molded Cyclebond lining—is featured on all models, 1½-ton and up, except air-brake models. It's extra-quiet, extra-smooth, extra-long-lasting! And Dodge gives you the added safety of all-steel "Pilot-House" cabs—with super-sized windshield, lower hood line, and relocated windshield wipers for better visibility.

### For smoother performance... longer truck life—FLUID DRIVE!

Available on 1½, 3½, and 1-ton models. This proved fluid coupling between engine and clutch cushions starts, protects more than 80 vital truck parts—including engine, clutch and entire drive line. Smoother starts give added protection to your load. Driving is easier! Less gearshifting! Your truck lasts longer! Ask us for copy of free glycol Fluid Drive Booklet.

### What "Job-Rated" means to you

A Dodge "Job-Rated" truck is engineered at the factory to fit a specific job... save you money... last longer. Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that SUPPORTS the load—frame, axles, springs, wheels, tires, and others—is engineered right to provide the strength and capacity needed.

Every unit that MOVES the load—engine, clutch, transmission, propeller shaft, rear axle, and others—is engineered right to meet a particular operating condition.

### PLUS ALL THESE TIME-PROVED FEATURES DODGE TRUCKS HAVE HAD FOR YEARS

Steering column gearshift, standard on 1½, 3½, and 1-ton models with 3-speed transmission. Independent hand brake for added safety. Synchro-shift transmissions (3-speed, 4-speed, or 5-speed) rugged, silent, precision engineered. De Luxe cabs (with rear quarter windows) available on all models. And many others!

## Anniversary Is Observed

### Wolves Auxiliary Celebrates Fourth Anniversary Tuesday

Wolves club members gathered at The Castleton Tuesday evening, at which time Ladies night was observed—the gala occasion marking the fourth anniversary of the Wolves auxiliary.

Flanking the speaker's table, was a huge cake, baked in book form. Pages of the beautifully decorated book, bore the names of the four auxiliary past presidents: Mrs. Rose Fazzone, Mrs. John P. Prioletti, Mrs. Anthony Marino and present president, Mrs. Lena Frediani.

**"Wish" Ceremony**

Prior to the dinner, an impressive "wish" ceremony was held. As each auxiliary president lit a candle, she expressed her wish for the welfare of the society. In the absence of Mrs. Prioletti, Mrs. Julia Failla, lit the candle as a substitute.

Angelo Frediani, who was president of the Wolves club at the time that the auxiliary was organized, made a few brief remarks commending the work of the organization. He was followed by Mrs. Lena Frediani, president of auxiliary, who expressed her desire for a larger and more progressive auxiliary in future years.

President George Scarazzo presided last evening. At 7 o'clock a full course dinner was enjoyed by the members, with Joseph Bordonaro giving the invocation. Gay floral pieces were used as centerpieces, and too, women president received gardenia corsages.

A brief business meeting took place, with the following announcements made: the annual Wolves club picnic is scheduled for July 8, at Gaston park. The basket picnic will start at 12 o'clock noon. The preparations for another Wolves club are underway, and Den No. 3, at Ambridge will soon be ready for installation.

Frank Sgaraglino, program chairman then introduced those participating in the evening's program. Excellent selections were given by the following members of the auxiliary and their accompanists: A violin and piano duet by Mr. and Mrs. Louis DiGiorgi; vocal selections that drew a large hand of applause were sung by a sextet: Mrs. Frank Summers, Mrs. Marshall Ruscetti, Mrs. Frank Sgaraglino, Mrs. William DeCarbo, Mrs. Angelo Chiasullo and Mrs. William Manella. Mrs. Joseph Bordonaro was the accompanist.

Duet numbers were nicely sung and offered by Mrs. Frank Sgaraglino and Mrs. Frank Summers. Piano solos were given by Mrs. Marshall Ruscetti, who played a selection from Il Trovatore, and medley of popular selections was given by Mrs. Joseph Bordonaro.

Dancing to the music of Muddy Ascone and his musicians concluded the evening's program.

## Legion Of Honor To Have Annual Strawberry Feed

Members of the Legion of Honor of the Valley of New Castle Consistory, A.A.S.R., will gather at El Rio Beach, Thursday evening, at 8 o'clock for the annual strawberry supper, which is for members only. Commander Robert L. Pearsall announced today.

Arrangements for the event were completed at a meeting held in the home of Clyde D. Badger last week, and a record attendance of members is looked for at this annual event.

New members admitted during the Spring reunion, will be initiated at this meeting, and an informal program will take place during the evening.

## Gen. Willoughby In Secret Testimony

WASHINGTON, June 20.—(INS) Maj. Gen. Charles A. Willoughby, Gen. MacArthur's former intelligence chief in Tokyo, is testifying secretly today before the Senate anti-subversive committee.

Chairman McCarran (D) Nev., told International News Service that Willoughby is testifying and will be in Washington for several days.

## Western Penna. Red Leader Is Under Arrest

PITTSBURGH, June 20.—(INS) —The arrest of former divinity student Arnold Johnson along with 16 other top Communist party leaders today presumably left the Western Pennsylvania district without a Red party boss.

Johnson was reported last Monday to have succeeded Steve Nelson as district chairman of the party in highly industrialized Pittsburgh.

Johnson was ordered held today under \$15,000 bond which he failed to meet immediately, at his arraignment in Pittsburgh.

According to reports, Johnson was sent to Pittsburgh from New York last January to interpret the party line when Nelson went on trial in the steel city on charges of violating the Pennsylvania anti-sedition act.

The decision to make him head of the party in Pittsburgh in name as well as fact apparently came after Nelson was seriously hurt in an automobile accident in Philadelphia last month.

## Honor Pastor At Reception

First Baptist church, North at East street, honored its new pastor, Dr. Garth Koch and his family at a well arranged reception Tuesday evening in the church auditorium.

A number of visiting speakers were present including: Rev. George Sarber, president of the New Castle Ministerial Association; Rev. Earl Collins, moderator of the Beaver Baptist Association; former judge R. L. Hildebrand of the church trustees; Winifred James, representing the Sunday school; Mrs. J. A. Forbes of the missionary society; J. W. Neyman, retired Baptist minister.

William C. Bowman served as chairman of the program, introducing the various speakers. Dr. Koch responded graciously during the evening promising his support of the work and thanking the group for their fine welcome given him and his family. The choir pleased with two numbers.

A reception line followed the service, with Dr. Koch and family and the members of the pulpit committee greeting the members and friends of the church. Refreshments were later served in the church dining room.

## Job-Selling Result Of Mississippi Political Reprisals

WASHINGTON, June 20—(INS) A Senate investigating committee said today that the Mississippi job-selling scandal was the result of "political reprisals" against the state's senators and representatives in Congress.

The group, headed by Sen. Hoyer (D) N.C., said the patronage was taken away from the Mississippi delegation and given to an "irresponsible and corrupt" faction with the blessing of the Democratic National committee.

The inquiry was made in response to demands made by Sens. Eastland and Stennis who charged that States-Rights Democrats who opposed President Truman in 1948 had lost their patronage to a group headed by Clarence E. Hood Jr.

In a new statement accompanying the committee report, Hoyer explained that patronage has since been returned to the congressional delegation.

Guest speaker was Edward A. DeCarbo, who spoke on Catholic Action. Rev. Fr. Paul Abraham made brief remarks at this time. Secretary Tom Bashero read the minutes of the previous meeting. President Michael Joseph presided during the short meeting that followed.

## Build Approach To East Side Of Grove St. Bridge

Grove street and South Croton avenue, from Mill street to Jefferson street, is closed to traffic as workmen are engaged in constructing the eastern approach to the bridge.

The bridge is higher than the old roadway, necessitating new construction on the approaches to bring the street to the level of the floor of the bridge.

Motorists will use other streets in the area as a detour until the work is completed.

## South Side Firm Remodels Store

Grand Reopening Starts Thursday

After months of remodeling work involving great expense, the Supreme company, 136 East Long avenue, will have its grand opening, starting on Thursday, it was announced today by Thomas Pawlak, owner and manager of the store.

From a most beginning 15 years ago, the store now is in its third location, has risen to one of the outstanding electrical appliance stores in the city.

Originally engaged in the radio and washing machine repair business, the Supreme company now carries in stock a complete line of radios, washers, refrigerators, gas and electric stoves, sweepers and many other electrical appliances.

Remodeling which has been in progress since January, has completely changed the store's interior providing a display and store room space of 24x100 including a commodious sales balcony. The building boasts natural daylight incorporating the use of the large center skylight.

The store is able to provide all famous make brands of merchandise.

During the reopening sale Thursday, Friday and Saturday, store hours will be 9 a. m. to 9 p. m. while normal store hours will be 9 a. m. to 5:30 p. m. with the exception of Monday and Saturday when the store remains open until 9 p. m.

The public is invited to inspect the facilities of the South Side firm which is ready to serve their old and new customers with the finest in electrical merchandise.

### Will Soon Complete 14-Weeks Training

FT. LEONARD WOOD, Mo.—Pvt. Kenneth Keck, son of Mr. and Mrs. George H. Keck, 910 West Washington street, New Castle, is nearing completion of a 14-week training cycle with a unit of the 6th Armored Division.

He will have received six weeks basic training in army fundamentals and an additional eight weeks' engineer training.

LONDON — Britain exported \$73,558,800 worth of whisky during 1950. A Scottish Home department spokesman pointed out that this was an increase of 13.7 percent by volume and 40.2 percent by value over 1949.

## Situation In Iran Critical Says Acheson

(BULLETIN)

WASHINGTON, June 20.—(INS)—Secretary of State Acheson today described the situation in Iran as critical following the breakdown in negotiations between British and the Iranian government over nationalization of oil.

Acheson noted at his news conference that the situation had taken a turn for the worse over the past 24 hours following Iran's rejection of a British offer of an immediate payment.

He said he was very much disturbed and disappointed and that he hopes a way may still be open for further negotiations.

Acheson said he had hoped the British offer of 28 million dollars immediate payment would open the door to friendly talks and that he regrets very much that the offer was turned down.

## Report Housing From Cockpit Of Plane Is Found

In a report to the New Castle News today, William Minter, R.D. 1, Edenburg, reported that he has found a plexiglass housing for the cockpit from an airplane in a field near his home.

It is his belief that the airplane "greenhouse" is from the P-47 fighter plane that crashed June 10 near Hillsville, killing Lt. Scott A. Blair, of Waynesburg.

If the plexiglass housing is from that plane, it would indicate that the pilot may have been making an attempt to escape as the plane crashed.

The Minter home is near the Harbor, some five to eight miles from the scene of the crash.

## House Committee To Approve Rent Control Extension

WASHINGTON, June 20.—(INS)—The House Banking committee is scheduled today to approve a one-year extension of rent controls and allow landlords a 20 per cent increase over the 1941 level.

Three members—Reps. Burton (D) Va., Bolling (D) Mo., and Wolcott (R) Mich.—will meet in advance of the committee session to draft an overall proposal that will virtually parallel Senate-adopted provisions.

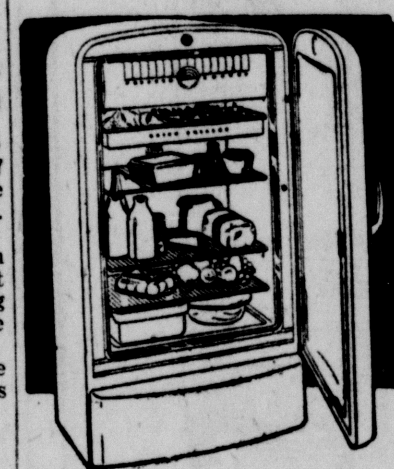

The chief point still in dispute, however, is the definition of critical areas, how shall they be re-controlled and who shall do the job.

Wolcott said the committee has agreed to permit the housing expediter to continue to handle the re-control of non-critical decontrolled areas.

The Senate Banking committee has approved an eight-months' extension of existing price, wage and rent regulations beyond the June 30 expiration date.

Meanwhile, President Truman prepared to make another urgent appeal to Congress this week for speedy enactment of a new and stronger anti-inflation law.

## Expect Gromyko To Make Proposal

PARIS, June 20.—(INS)—Soviet Deputy Foreign Minister Gromyko is expected today to make a compromise proposal to the conference of big four deputies on an agenda for a top-level meeting of foreign ministers.

A high diplomatic source said Gromyko may yield on the west-

ern demand that the North Atlantic treaty organization be eliminated from specific listing on the agenda as provision is made that the pact can be discussed under the heading of causes and effects of tension in Europe.

## Plan New Plants To Produce Sulphur For Making Paper

WASHINGTON, June 20.—(INS)—A national production official said today some paper mills are planning to build new plants to produce a new supply of sulphur, an important part of newsprint.

J. G. Ticoulat, director of NPA's pulp and paper division, told a house subcommittee studying the newsprint shortage that the mills want enough of the new supply to maintain full production.

As other conditions for building the sulphur plants, Ticoulat said the mill owners want accelerated amortization tax benefits and priority assistance to get necessary materials.

### GENERATOR AVAILABLE FOR EMERGENCY NEEDS

Farmers seeking a standby source of electricity to weather occasional power failures on their farm may find the answer to their needs in a tractor-driven generator. These units can be designed for portable as well as stationary use. Complete, they weigh only about 200 pounds.

A generator supplying about 3,000 watts of 60-cycle AC power seems to provide most farms with sufficient emergency current. However, larger and smaller units are available on the market.

Ordinary farm tractors are easily belted to the shaft of the generating unit. Some units have a

countershaft using V-belts of a 2-1 ratio step-up in speed. This permits the tractor to idle at about 60 per cent of normal. About seven horsepower is required for the 3,000-watt unit. Correct operating speed is indicated by a voltmeter which is usually furnished as standard equipment.

Switching from the power line to the stand-by generator is accomplished safely and easily by a standard two-pole double-throw, 60-ampere switch. The electric companies require complete disconnection from their service when a standby unit is used. With the generating unit in the machine shed or garage, the switch can be installed on the meter pole.

### MOTH CONTROL

If clothing free from moths is put into an unbroken paper garment bag that is tightly closed and sealed, the paper will keep moths out indefinitely. Once moths get into the bags, damage will result.

### CONTROL MITES ON EVERGREENS

The first evidence of mite injury on evergreens is small, gray or yellowish spots on the foliage. Later the foliage becomes brown-colored. Heavily infested needles may drop from the tree. Entire trees have an unthrifty appearance and loss of vigor.

Mites are extremely small and hard to detect with the naked eye. They vary in color from reddish-brown to pale green. The mites spin fine, silken threads over the needles for protection of the eggs and young. All stages of this pest can be found on the foliage during the summer months.

Mites can often be kept in check by syringing the trees from top to bottom with water, under pressure, from the garden hose. For best results, this should be done at weekly intervals.

A spray containing 1 pound of Aramite 15 per cent wettable powder in 50 gallons of water has proved to be one of the most satisfactory sprays for mite control. Sprays containing rotenone (used at the directions of the manufacturer) are beneficial in helping to keep the infestations in check. Two applications at weekly intervals are needed.

Wettable sulphur, 1 pound in ten gallons of water, will give a fair degree of control.

**CRISPY LETTUCE**

NEW YORK—Lettuce and other salad greens, and tomatoes, have a tendency to lose crispness if they're used in sandwiches which you plan to store any length of time before serving. If you want lettuce or other green to remain crisp, wrap them separately and add them to sandwiches just before serving.

Clark, chief of army field forces, said the additional two weeks is necessary to provide more training in "combat skills and the use of individual weapons".

He described 14 weeks as the "shortest minimum period" of training that could be given, and said it had been used up to now only because of the heavy demands of the forces in Korea.

**Basic Training Period Increased**

WASHINGTON, June 20.—(INS)—Gen. Mark W. Clark announced that effective next month the army's basic training period for recruits is being increased from 14 to 16 weeks.

Clark, chief of army field forces, said the additional two weeks is necessary to provide more training in "combat skills and the use of individual weapons".

He described 14 weeks as the "shortest minimum period" of training that could be given, and said it had been used up to now only because of the heavy demands of the forces in Korea.

## Change Made In Policy For Recruiting

A recent change in the recruiting policy of all branches of the armed forces gives young men who have received their notice to report for pre-induction physical or who have had their pre-induction physical under selective service a 30-day period between June 15 and July 15, 1951, to enlist in the armed forces of their choice. A young man who receives his notice to report for induction is not eligible to enlist.

It is anticipated by the Department of Defense that at least 300,000 otherwise ineligible young men will become eligible to enlist in the service of their choice as a result of this ruling. Of these 300,000, the recruiting representatives at the Post Office building here in New Castle estimate that approximately 150 men in Lawrence county fall in this category. The armed forces recruiters feel that there are many advantages to enlisting and have set forth what they have to offer in types of enlistments.

**United States Navy:** 4 year enlistment. Take boot training at Bainbridge, Md., for a period of 11 weeks. Graduates of boot training are eligible for assignment to a navy trade school or a ship of the US Fleet. Assignments are determined by grades made in the classification tests given at boot training. Has 62 different job fields.

**United States Marines:** 3 or 4 year enlistment, also a reserve enlistment for an indefinite period of time. Take training at Parris Island, S.C., for a period of 8 weeks. Assignments are made within the marines on basis of aptitude tests and prior experience. Over 100 different types of assignments including aviation.

**Air Force:** 4 year enlistment. Take basic training at Sampson Air Force Base, Geneva, N.Y., for a period of 8 weeks. Graduates are eligible for further training at technical schools and specialized on-the-job training based on aptitude tests, desires of the man, and prior experience. Air Force has 42 Career Fields with over 400 job classification.

**Regular Army:** 3 year enlistment and also a 21 month enlistment for men between ages 19-26 who have not had prior service. Sent to Fort Meade, Md., for initial processing. Basic training for 8 weeks and are eligible upon graduation for assignment to special schools and technical training. Over 500 different job classification in regular army. Also have a direct enlistment in the airborne.

Under selective service ruling, young men who serve less than three years in any branch of the armed forces must agree to serve in the reserves upon discharge, while men who serve regular enlistments of three years or more are not required by law to serve in a reserve status unless they so desire.

**NATURAL GALS**

**NEW YORK**—The blonde has had her day. From now on, gentlemen are going to prefer brunettes.

That's the prediction of former blonde actress Patricia Neal, who had let the brown threads creep back among the gold. Today, curvy Pat again is her natural self. She says: "Let's not kid ourselves—most men know that most flaxen tops weren't born that way. The peroxide pretty is nothing more than a fake and show me a guy who doesn't get tired of an artificial woman."

Cleopatra is said to have slept on a mattress filled with rose leaves.

## THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

### Another Angle On Boys and Girls

There is a general feeling that boys and girls around the ages of eight or nine to twelve don't get along well together. Boys, especially, are often contemptuous of girls. "Aw, she's a girl!" Often is heard coming from boys and indicating no fondness for the opposite sex.

One of our friends, who, with a boy and girl of her own, has a chance for some first hand observation, suggested an angle on this situation the other day.

"I wonder," she said, "whether often the boys aren't a little jealous and angry at girls because they get along in school better than boys? Perhaps it's partly because a girl is usually a little more advanced intellectually at this time than a boy of the same age. Perhaps it's because we teach girls to do what they're told more than we do boys and doing what you're told helps you get along better in school."

It's something to think about. It surely wouldn't seem likely that there's an inborn antagonism between the sexes showing itself in these early years. Maybe we do through the different expectations we have for boys and girls, set them off one against the other. (Copyright, 1951, United Features Syndicate, Inc. ## James E. Minick Gets M.D. Degree

At a colorful graduation ceremony held in Convention hall, Philadelphia, on June 14, James E. Minick received his degree as Doctor of Medicine from the School of Medicine, Temple university.

During the ceremony, Eddie Cantor was given the honorary degree of Doctor of Humane Letters, Gov. Fine, Frank Pace, Jr.,

secretary of the Army, were among notables also receiving honorary degrees.

Dr. Minick was graduated from New Castle high school, class of '42. After serving two and a half years here and overseas, with the U. S. Army, he took his pre-medical training at Westminster college.

He is a member of the Phi Rho Sigma Medical Fraternity and holds the commission of First Lieutenant, in the Medical Corps Reserve.

Dr. and Mrs. Minick and small son, Jeffrey will be located at

Johnstown, Pa., after July 1, where he will serve his medical internship at Conemaugh Valley Memorial hospital.

Attending the graduation ceremony from this city were Mr. and Mrs. E. J. Minick, Old Plank road,

parents of the graduate; and his brother, Dr. Russell C. Minick and wife of Stoyestown, Pa.

More than one-fifth the total area of the Bronx, New York, is devoted to parks.

Buick's newest engine — the F-263 Fireball — gives this year's SPECIAL the highest power in SPECIAL history

## Remember-only BUICK has a FIREBALL ENGINE

WE get a chuckle, sometimes, over all the fuss that's being made about "new engines."

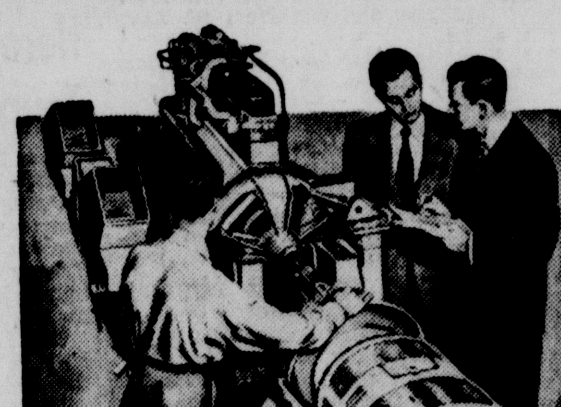

You'll note that the key feature of their design in every case is the valve-in-head principle — whether these engines are already in production or still in the dream stage.

Fact is, it takes this design to get the most from "high compression"—and how high you can go depends upon the available fuel. Using this design, war-time aircraft engines operated on 100 octane gasoline.

It also takes this design to get the more-miles-per-gallon which folks like in an automobile.

So what gives us a chuckle is this:

No other type of engine has ever been used in a Buick — which means that Buick owners, all along, have been

When you come to check the field you'll find that there's a sweet freedom from roughness to this engine's operation—tracing to the fact that the whole mechanism itself is engineered smooth, and the further fact that every Fireball Engine gets a Micropoise balancing after assembly.

★ ★ ★

getting a lot of things that others have just "discovered."

But that's not all. They get something more — vastly more — because today's Fireball Engine has one standout feature found in no other automobile.

That name "Fireball" isn't just a trick

word. It describes what happens in this engine. Inrushing fuel rolls into a swirling ball of gasoline vapor compacted around the spark plug. And when the fat spark sets it off, a cyclone of power lets go.

Of course, a Fireball Engine, being a valve-in-head, keeps pace with high-test fuel, when it comes to "high compression."

But what's more important in the present state of the world is this: A Fireball Engine is designed to handle the not-so-high-test fuel we may be getting in the not-too-distant future.

So, if you want to sample all that's fine in motorcar engines, your Buick dealer is the man to see. Come in soon, and find out what the rest of the world has been missing.

Equipment, accessories, trim and models are subject to change without notice.

# Southworth Quits Manager Job, Holmes To Lead Braves

By SY FRIEDMAN  
(I. N. S. Sports Writer)  
CHICAGO, June 20.—When Billy Southworth threw in the white towel as manager of the Boston Braves the crying cloth was snatched up quickly by Tommy Holmes, the former Beantown outfield star.

Holmes is slated to arrive in Chicago today to take charge of the sixth-place Boston club following Southworth's resignation yesterday during the Chicago Cub-Braves contest which Boston lost, 3 to 0.

Holmes, like Shortstop Marty Marion of the St. Louis Cardinals, is a former player who has been called upon by the powers that be to take over the reins of manager-ship.

And like Marion, Holmes is expected to be a playing-manager. Holmes was in the midst of his first year as manager with the Boston-owned Hartford team in the Eastern league when President Lou Perini called him by telephone Sunday.

John Quinn, general manager of the Braves, and Perini were informed of Southworth's decision to quit last week.

Recently Southworth explained his health was excellent and added he was quitting the Braves only because he thought "it would be for the good of the club."

**Will Return To Farm**  
Quinn said Southworth's resignation was a "surprise" to him, but observers close to the situation said the move had been "brewing" for some time.

Southworth, though indicating disappointment with the Braves' 1951 showing, said he's "not mad at anyone on the club."

He plans to return to his home at Sunbury, O., but emphasized he is not quitting baseball permanently.

## STEELERS SIGN TWO

PITTSBURGH, June 20.—(INS)—Regular guard George Nickisch of Monessen, Pa., and rookie Bill Pavlikowski, a Boston University T-quarterback from Brownsville, Pa., today returned signed on contracts to the Pittsburgh Steelers.

## No 'Lingering'

"OUR OPERATIONS indicated clearly that the mysterious ghost of lingering radiation should be dispelled," Lt. Gen. Elwood R. Quessada, commander of the 1951 atomic tests at Eniwetok atoll in the Pacific, tells reporters in Washington. (International)

## Atlanta's Tanner Blanked After 18 Game Hitting Skein

Charles "Lefty" Tanner ran his consecutive game hitting streak to 18 before being horse-collared the night of June 8. Norman Brown, veteran Southern Association pitcher, blanked Tanner in four trips to the plate.

"Lefty" who has been playing the outfield for Atlanta is the son of Mr. and Mrs. Charles W. Tanner, of Stanton avenue, New Castle.

# Overestimates Not Admitted

## Cabinet Officers Stick To Figures

HARRISBURG, June 20.—(INS)—A highlight of the Republican senators scrutiny of Governor Fine's recommendations was the refusal of cabinet officers summoned before the group to admit overestimating departmental needs for the 1951-53 biennium. Agriculture Secretary Miles Horst and Labor and Industry Secretary David M. Walker were the only officials admitting to possible unexpended balances after May 31 have been paid. The total of the two agencies was near two million dollars. Their 1951-53 appropriations cannot be cut if operations are to continue on the same level as before, they said. Had any of the officials admitted to overestimates before the Senate group their testimony would not have jibed with their demands when the budget was put together last winter by Governor Fine and Budget Secretary E. M. Logan. The effect of the two-day week end session was to emphasize what was known before the meeting and that was that the cabinet is loyal to Governor Fine while 11 out of 30 Republican senators cannot see eye to eye with him on tax matters.

Rev. Clyde E. Huber, whose duties on Capitol Hill daily bring him into contact with State house newspapermen, learned the hard way that his ministerial duties in the Grace Evangelical congregational church had not left much time for learning the rudiments of garden pest control. When his wife left for a brief vacation, Reverend Huber decided a forthright campaign was in order against tomato plant bugs. Armed with a can of what he believed to be bug killer, Reverend Huber sallied forth and sprayed the young plants with zeal. The next day all were dead. But the Reverend's pastoral responsibilities are such that he has learned to rise to any occasion. He promptly bought similar tomato plants, replanted the old with them and resolutely awaited the return of his wife. She never noticed the difference and Reverend Huber hopes she never does.

Senate Majority Leader John M.

Walker has no intention of quitting his post on the Republican side as a result of his tax tiff with Governor Fine and there is no real sentiment in the GOP caucus to oust him. Governor Fine undoubtedly would not protest if Walker should step aside but he has refused to involve himself in legislative wrangles. The governor's attitude, many lawmakers say, is one of the reasons the General Assembly is snarled into a tight knot over the income tax. The governor so far refuses to use such handy weapons as patronage and the threat of setting up opposition to re-election against legislators balking at certain aspects of the administration program. Two years ago, the House caucus spiked then Governor Duff's \$15,000,000 housing program. It wasn't long before Duff made an unprecedented foray against the caucus and twirled the pressure thumb screws with such vigor that the GOP members were eager to reverse their stand and pass the bill.

The National Life Insurance Institute had advised the State Insurance Department that Pennsylvania paced the nation in industrial insurance as of completion of a survey January 1. At that time, Pennsylvania had in force 11,184,000 policies worth \$3,595,000,000, according to the institute. Second to Pennsylvania in value of industrial policies was

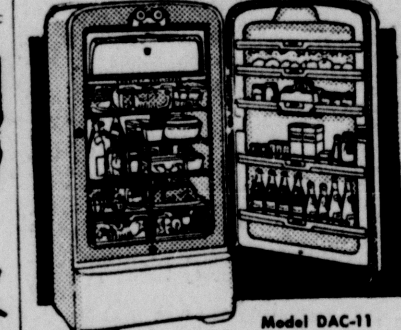

New York with 9,702,000 policies worth \$3,587,000,000. Adding the industrial total to the ordinary and group insurance aggregates, the institute reported there was \$20,421,000,000 worth of insurance in effect on the first of the year in Pennsylvania or about 12 and one half billion behind the New York total.

**WEEK ENDS TOO SHORT**  
MONTESANO, Wash., June 20.—(INS)—The week ends were all too short for the tavern owners in districts two and three of Grays Harbor county, Washington. So they appealed to the commissioners, explaining daylight savings time was cutting an hour from their best drink-selling hours. The commissioners cooperated. They ruled that daylight savings time would be in effect on work days and standard time on week ends. The action makes it difficult to tell time, but who cares?
